

Technology & Related Transactions

CH&'s experienced attorneys handle commercial technology transactions that involve the licensing of technology and intellectual property rights.

Our clients include emerging, family-owned or closely-held private companies; large, multinational or publicly-traded companies; private equity, venture capital, and other financial institutions; non-profits; and retail and hospitality organizations.

Areas of Emphasis:

- E-commerce and online agreements (EULAs, Terms of Service, etc.), including analysis of enforceability
- Software as a Service (SaaS) agreements, including XaaS agreements
- Data rights
- Technology development and procurement
- Internet of Things
- Machine learning and artificial intelligence
- Online advertising
